- Stitched Rectangles Dies (151820)
- Banners Pick-a-Punch (153608)
- Sponge Daubers (133733)

Measurements:

- Thick Basic White Card Stock: 8-1/2" x 5-1/2", scored at 4-1/4 along the long side scrap approximately 1-1/4" x 3-1/4"
- You're A Peach DSP: 3/4" x 3-1/4"

Instructions:

1. Using Old Olive Ink, stamp the large spray of leaves onto the card front, placing the stamp image so that the bottom of the stems are near the center of the card.
2. Add Real Red ink to the 3-cluster of fruit. Using a Sponge Dauber, add Cherry Cobbler Ink to the outer edges of the fruit. Give the stamp a huff of breath to remoisten the ink on the stamp and stamp onto the openings on the spray of leaves.
3. Take the Old Olive marker and using the brush end, hold the lid with your left hand (if you're left-handed, hold the marker in your left hand and the lid in your right hand). Partially insert the brush into the lid and use a flicking motion to spray dots onto the card base. Repeat as often as desired.
4. Die cut the scrap of Thick Basic White Card Stock using the 2nd smallest skinny stitched rectangle die.
5. Using Cherry Cobbler Ink, stamp the greeting of your choice in the center of the die cut piece. I used "Thanks so much!"

Sue Patrsyk
INK AND SPARKLE STAMPING

6. Take the strip of DSP and insert into the triangle flag end of the Banner Pick-a-Punch and punch the end. Insert the other end of this strip into the punch and punch the triangle flag again.
7. Cut the DSP strip in half and add Stampin' Seal to the top of the non-punched ends. Adhere one piece of DSP to the right and left sides of the die cut stitched rectangle. Add Stampin' Dimensionals to the back of this layer and add to the card front just below center.
8. Add 3 In-Color Jewels to the card front.
9. Add the personalized greeting of your choice inside your card and send to someone special!
